

To embed a YouTube video within Course Resources (Blackboard):

1. Go to the YouTube web page of the video you would like to embed and **copy the web link** in the browser address bar.

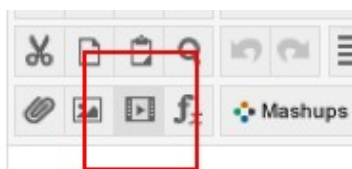

2. Go to the area in Course Resources (Blackboard) where you would like to embed the YouTube video, this is usually the Study Materials area.

3. Click '**Build Content**' and then '**Item**'.

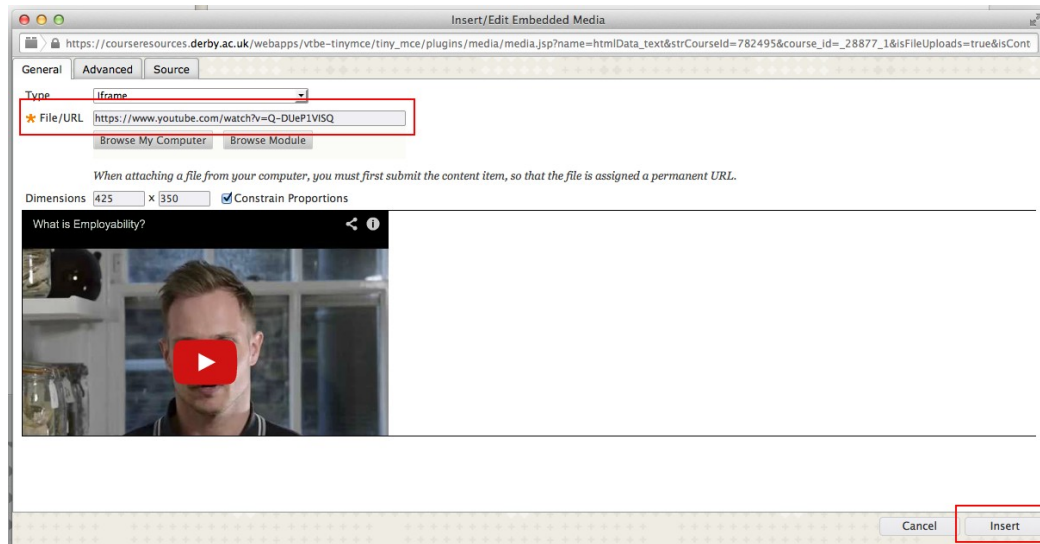

4. Add a **name** to the item.

5. Click the '**Insert/Edit Embedded Media**' button, a new window will pop up.

6. **Paste the web link** from the clipboard into the '**File/URL**' box and click '**Insert**'.

7. Set any other item options as required and click **'Submit'**.

Your video will now be embedded within Course Resources (Blackboard).
